
GENERAL INFORMATION.

THE Glenwood Summer Hotel is ideally located among the imposing shade trees of Sunset Beach on beautiful Lake Minnewaska, the gem of the Park Region of Minnesota, so called on account of its countless lakes and streams, its wide expanse of natural timber and delightful scenery. Three miles from the city of Glenwood, and only a few hours from the cities of St. Paul and Minneapolis, the Glenwood Summer Hotel is easy of access. Splendid train service on the Soo Line, with the choice of several handsomely equipped trains either way each day, and excellent roads in all directions, make the journey attractive and comfortable. The city dweller who yearns for rest and recreation amid natural surroundings, or the people of the Southland who seek relief from high temperatures, will find here an ideal haven. The Summer Hotel caters to no one particular class. Each guest is privileged to spend his days as suits his pleasure. The social life of the hotel leaves one free to indulge his own whims. He may be formal or informal—there are no hard and fast rules to observe.

The hotel is not only conveniently located but is also fully equipped with conveniences for those who seek rest and recreation during the summer months. Perhaps of first importance should be mentioned the fact that the hotel proper and the adjacent cottages are piped with running water from one of the famous springs that has made Glenwood spring water nationally known. The hotel has its own gravity water system, and the pure, sparkling spring water, deliciously cool and invigorating, always attracts the favorable comment of visitors.

The main building of the Summer Hotel plant has a large screened veranda which is generously furnished
